OBJECTIVE

I am seeking an IT role to apply knowledge in programming, systems analysis, and troubleshooting to develop efficient solutions, support technical operations, and continuously grow professional skills in a dynamic environment.

WORK EXPERIENCE

Batangas State University TNEU - Lipa Campus | February 2026 - May 2026

IT Support Intern

- Provided IT support and troubleshooting for internet connectivity, printers, computers, and other office technology services across departments at Batangas State University TNEU - Lipa.
- Assisted in diagnosing and resolving hardware, software, and network-related issues to ensure smooth daily operations and minimize technical downtime.
- Conducted inventory management and documentation of ICT equipment, including monitoring, organizing, and updating records of devices and technical assets.

Tech Executive Labs | February 2025 - May 2025

Web Developer Intern

- Collaborated with the development team using GitHub for version control and team-based web development at Tech Executive Labs.
- Learned and applied modern web development technologies and tools.
- Worked with the team on collaborative coding and project development tasks

EDUCATION

Batangas State University - TNEU Lipa
